**Executive Order 2006-13
Climate Change Action**

[M06-364]

WHEREAS, Executive Order 2005-02 recognized that a scientific consensus has developed that increasing emissions of carbon dioxide (CO₂), methane and other greenhouse gases (GHGs) released to the atmosphere are affecting the Earth's climate; and

WHEREAS, between 1990 and 2005 Arizona's GHG emissions increased by an estimated 56 percent; and

WHEREAS, GHG emissions in Arizona are projected to increase by an estimated 148 percent over 1990 levels by 2020; and

WHEREAS, Arizona and other Western States are experiencing the effects of a hotter, drier climate, including prolonged drought, excessive heat waves, reduced snow pack, increased snowmelt, decreased spring runoff, altered precipitation patterns, more severe forest and rangeland fires, widespread forest diseases and other serious impacts; and

WHEREAS, the Western Governors Association has declared that climate change could have severe economic and environmental impacts on Arizona and the West in coming decades; and

WHEREAS, the Western Governors Association also has declared that action to reduce GHG emissions can have significant economic and environmental benefits for Arizona and other Western States, including increased energy efficiency, improved air quality, cost savings, job growth, increased revenues, and reduced water pollution; and

WHEREAS, the Climate Change Advisory Group (CCAG), established by Executive Order 2005-02, has submitted a Climate Change Action Plan to the Governor that contains numerous recommendations for addressing and reducing GHG emissions in Arizona; and

WHEREAS, in addition to substantially reducing Arizona's GHG emissions, it is estimated that the CCAG's recommendations could result in overall net economic cost savings in Arizona of more than \$5.5 billion between 2007 and 2020, with additional significant cost savings between 2020 and 2040;

NOW THEREFORE, I, Janet Napolitano, Governor of the State of Arizona, by virtue of the powers vested in me by the Constitution and laws of this State, do hereby order:

1. As recommended by the CCAG, it shall be the goal of the State of Arizona to reduce GHG emissions in Arizona to its 2000 emissions level by 2020 and to 50 percent below its 2000 emissions level by 2040. Furthermore, I direct the Climate Change Executive Committee to explore reaching 2000 emissions level by the Arizona Centennial, 2012.
2. The Climate Change Executive Committee is hereby established and charged with recommending strategies to the Governor for implementing recommendations in the Climate Change Action Plan in consultation with the Governor's Office.
